

America, Cornwall

Ive been down to the water
Ive been on top of the world
Somebody should come and see me
Somebody should give me the word
cause I dont know how many more
I dont know how many more
I dont know how many more to see
Sometimes the free thoughts clash
Sometimes I see through the grass
Sometime the light begins to dim
Somebody should come and be me
Somebody should come and free me
cause I dont know how many more (many more)
I dont know how many more (many more)
I dont know how many more to see
Oh darlin, darlin, I always wanna see you
Oh darlin, darlin, I always wanna see you
I cannot learn much more life
I cannot see much more
Somebody should stop the new sight
Somebody should close the door
cause I dont know how many more (many more)
I dont know how many more (many more)
I dont know how many more to see
Wrapped in a blanket, lyin in the snow
Feelin like the men felt a long time ago
Goin to find me a home, goin to build it with my hands
Cant you see theres food to be grown
Got to dig up, dig up the land
