## American Idol, Come On In Out Of The Rain

**AMERICAN IDOL** 

You said you believed that we'd find love together happily after all the wrong I've done you feel that I'm still the one to give your loving to so bring it home to you

You told me, that you'd love me if I'd ever change welcome me into your arms again come on in out of the rain (hey) there's a place in your heart to love me again happiness and joy you bring when you call my name come on in out of the rain

I loved no one but you but I strayed, I know I made you blue you spoke into my very soul you warmed my heart that once was cold now I'm so glad I know (yeah yeah yeah)

Some people spend a lifetime looking for love and I had love right here all the time why did I try to deny it deep inside I just couldn't fight it you turned my life around the love I lost is found so let the rain come down
