

Amerie, You're A Star (Interlude)

Your Make Me feel real good
And it's too good to be true
Cause I can't seem to get enough
I do anything just to have your love
I can't get away from you
Ooh Ooh Ooh
Oh nooowo
Oh nooowo
You make me feel real good
You should be here with me
You make me feel so good
This is where you need to be
You must be the endless thing around
Yes you are you are
Heaven lost a star when you came down
The star yes you are
You're a star
You should be here with me
You should be here
