

# Amy Studt, Put Your Faith In Me

Friend of mine,  
Weve been apart too long  
And its been a while  
Since I could call you  
Petty arguments that I  
Could not let go  
But now Im trying to show  
Humility  
Now if you need me  
Im not far away  
Put your faith in me  
If you feel down  
Just look around  
And you will find  
You can put your faith in me  
Just wait and see  
And youll find me  
Im sending my love to you  
From the one who cares  
Put your faith in me  
And it makes me smile  
Just to talk to you again  
It soars beyond my reach  
Tender ness that I had lost  
And forgot how to feel for a while  
Now if you need me  
Im not far away  
Put your faith in me if you feel down just look around  
And you will find you can put your faith in  
Just wait and see and youll find me  
Im sending my love to you  
From the one who cares  
You can put your trust in me  
Put your faith in me  
If you feel down just look around  
And you will find you can put your faith in me  
Just wait and see  
And youll find me  
Im sending my love to you  
From the one who cares  
Put your faith in me  
Put your faith in me
