Anathema, Ariel

I found you In the dark I found you In the dark

Don't leave me Here Don't leave me

Staring at the sun A love so strong it hurts Staring at the sun A love so strong it hurts

I dreamed of you In the dark You spoke to me From afar What you mean to me Is clear And I'll always be near

I found you In the dark I found you In the dark

Don't leave me Here Don't leave me

Staring at the sun A love so strong it hurts Staring at the sun A love so strong it hurts

I look into your eyes See my life defined Look into your eyes See your heart in mine

Staring at the sun A love so strong it hurts Staring at the sun A love so strong
