Anathema, The Beloved

Another day unfolds, still I exist Never felt so cold, I never knew I was turning away Though I can't explain, I only love you now that your missed As I stand in the rain, leave me to go through this

I don't think I could face another sleepless night If I could only trace that elusive light In a dreamland flight to your agonizing eyes A never ending flight, my silent cries

Still I close my eyes and my mind becomes clear Still I dream, and there you are... How still you lie and how your eyes bring back the fear Still I can't face what's going on in here...

Everything that I've ever felt has gone, At last my spirit breathes I see no point in going on So goodbye... It's time for me to leave
