

And One, Only One

Nothing would be better
When you turn away
Give me a second chance
So let me stay

The smile in your face
Tells it for sure
I want to be with you
No matter rich or poor

No matter rich or poor

Whats the reason why
You dont talk to me
The tenderness you giving me
Makes me free

Ive got that feeling
Of golden times
But I see everthing
What glitters isnt gold

No matter rich or poor

Youre the only one in my dreams
Youre the only one so hear my screams
All the things seem to blend
When I touch your skin and hold your hand
