

Andru Donalds, Loving You

Touch, something you do that makes me high
Just give me wings and I would fly
Straight to your heart
And forever I'll remain

Cry too many tears are not enough
Expressing to you how much I love
Sharing your mind and your soul
Forever and a day

You're my desire you are my pain
You are my fire you are my rain
Flowing our love
Take away this world
You're the beauty that remains

(Chorus)
Loving you is so easy to do
Loving you is so easy to do
Loving you is so easy to do
Loving you is so easy to do

Kiss feels like Heaven's right by my door
Just like your river that overflows
Though I may drown I don't mind
Swimming in your river

When you are weak girl I will be strong
When you are right girl I may be wrong
You take my breath away
And I want you to know
With every beat of my heart

(Chorus)

Oh your smile keeps a lot
Brightness up my day
No matter who made it miles away
You're my steady now
My breath of life

(Chorus)

Loving you is so easy to do
