

# Andrzej Zaucha, Variations on the eye rhyme

Up and down all along the line  
The only thing I crave's a flicker of starlight in your eyes,  
No use trying to change my mind, you see -  
That's what I would like to live by.  
All my life I've been looking up  
To find a little star to twinkle at me to make things shine.  
But the stars they give off cool light, you know.  
Unlike the one in your eyes -  
It's no use denying.  
Why keep on scanning the sky for a star  
When I have found the only one that I will keep and cherish,  
Why keep on looking up to scan the sky  
When I found my love.  
I would rather look in your eyes  
To find a little star to twinkle at me to make things shine  
When I got you now by my side.  
Up and down all along the line  
The only thing I crave's a flicker of starlight in your eyes.  
No use trying to change my mind, you see.  
(Scat) Other guys have been looking up  
To find a little girl with a kaleidoscope in her eyes,  
But they want quite a different high, you know,  
Unlike the one in your eyes -  
It's no use denying.  
Why keep on scanning the sky for a star  
When I have found the only one that I will keep and cherish.  
Why keep on looking up to scan the sky  
When I found my love.  
I would rather look in your eyes  
To find a little star to twinkle at me to make things shine  
When I got you now by my side.  
Up and down all along the line  
The only thing I crave's a flicker of starlight in your eyes,  
No use trying to change my mind, you see -  
That's what I would like to live by.  
All my life i've been lookin up  
To find a little star to twinkle at me to make things shine.  
But the stars they give off cool light, you know.  
Unlike the one in your eyes -  
It's no use denying.  
Why keep on scanning the sky for a star  
When I have found the only one that I will keep and cherish.  
Why keep on looking up to scan the sky  
When I found my love.  
I would rather look in your eyes  
To find a little star to twinkle at me to make things shine  
When I got you now by my side  
When I got you now by my side  
Oh baby, look that's just right - Yeah!
