

Andy Griggs, Ive Learned

Ive learned that sex can sell anything on TV
Ive learned that what you get aint always what you see
Ive learned that politics and acting are the same profession
And the soul gets mighty sick when it goes without confession
I Know a lot about living
But I got so much to learn about love

Ive learned that the winners dont always have the most talents
and often the most gifted lives fall out of balance
And Ive Learned you can never lose if you dont give up, dont give up
I Know a lot about living
But I got so much to learn about love

Chorus:
Cuz when it comes to love
I get so confused
Things I say and shouldnt say
And do and shouldnt do
I build back walls that ive torn down
I hide my heart so it cant be found
I get lost as lost can be
But still you keep lovin me

Ive learned that im a taker and I need to be a giver
And I promise you a whole lot more than I deliver
And ive learned that forgiveness is a simple gift of grace
And I know I dont deserve it but I see it in your face
I know a lot about living
But I got so much to learnr about love

Chorus:
Cuz when it comes to love
I get so confused
Things I say and shouldnt say
And do and shouldnt do
I build back walls that ive torn down
I hide my heart so it cant be found
I get lost as lost can be
But still you keep lovin me

Ive learned that every day miracles still happen
and the sweetest musci is the sound of children laughing
And you should kiss your folks everytime you leave em
Cuz you never know it just might be the last time you see em
I know a lot about livin
But I got so much to learn about love
I know a lot about livin
But I got so much to learn about love

I have Learned

I have Learned

I know a lot about livin
But I got so much to learn about love
