

Anette Olzon, Bye Bye Bye

Could I ever know what would come?
The day I got the call from you
Could anyone have told me before?
The end will be so cruel I got screwed

And there is no reason to doubt
Standy on the path we have found
Remaining friends despite the rough times
Despite no common ground

I'm running faster trying to escape the story, story of my life
(Made up lie)
They gave me glory, then they stopped the journey every dark advice
Bye Bye Bye!

And came as the years passed by
Never shared the reason why
Some wanted pleasure some only fame
For me my reason wasn't the same

If I don't brace your down from the sky
A mist white lonely halls far behind
The train alone no family or friend
Sent all that by the end

I'm running faster trying to escape the story, story of my life
(Made up lie)
They gave me glory, then they stopped the journey every dark advice
Bye Bye Bye!

Years of harassment
Nothing seen, nothing said
Pump, lick, reveal
Affordable
My psychosis
Huge big head
Well, long live the king
The king is dead! (king is dead)

The train alone no family or friend
Sent all that by the end

I'm running faster trying to escape the story, story of my life
(Made up lie)
They gave me glory, then they stopped the journey every dark advice
Bye Bye Bye!
I'm running faster trying to escape the story, story of my life
(Made up lie)
They gave me glory, then they stopped the journey every dark advice
Bye Bye Bye!
