

Anew Revolution, Done

You wanna try me you might be the one who goes down
I've had it up to here with your rule
You're such a two face its too late to take back those words
I'm throwin back the shit that you do
Things went so wrong so long ago
There's nothing left but a disaster
Hey I wanna watch you bleed
Tear it at the seems
I'm screamin out
Done with is done with
Hey I wanna watch you bleed
Tear it at the seems
I'm screamin out
Done with is done with you
You wanna blind us and sell us the bed that you made
I've had it up to here with your fools
Life or death its royal fist fuck
The other word is freedom to you
Things went so wrong so long ago
There's nothing left but a disaster
Hey I wanna watch you bleed
Tear it at the seems
I'm screamin out
Done with is done with you
I wanna watch you bleed
Tear it at the seems
I'm screamin out
Done with is done with
Hey I wanna watch you bleed
Tear you at the seems
I'm screamin I'm
Done
Hey I wanna watch you bleed
Tear it at the seems
Done with is done with you
I wanna watch you bleed
Tear it at the seems
Done with is done with you
Done with is done with you
Done with is done with you
