

Angel Dust, Unite

Don't speak...

Of the silence that falls on the future

I won't say - but I believe there is something in my mind

It's hard to expect there will be no surprises

Don't feel - there's a sign of what's coming - we divide

Keep us together

Don't silence our souls

In this dread - ripped apart again

You know my aim is for you to be my last resort

Don't heed the empty mindless call

I don't feel hatred towards you

This is my last remorse

Here comes the ending

Unite - in the mystic world

Unite - in the mystic world

Unite - and overcome

Don't say that the cries of tomorrow are silenced

Don't think like we will be living in ecstasy

[repeat bridge]

[repeat chorus]

[repeat bridge]

Don't feel my agony now

This is my last real hope

Don't heed the empty mindless call

I don't feel hatred towards you

This is my last remorse

Here comes the ending

Unite - in the mystic world

Unite - in the mystic world

Unite and overcome
