Angel Dust, Unite

Don't speak...
Of the silence that falls on the future
I won't say - but I believe there is something in my mind
It's hard to expect there will be no surprises
Don't feel - there's a sign of what's coming - we divide

Keep us together Don't silence our souls In this dread - ripped apart again

You know my aim is for you to be my last resort Don't heed the empty mindless call I don't feel hatred towards you This is my last remorse Here comes the ending Unite - in the mystic world Unite - and overcome

Don't say that the cries of tomorrow are silenced Don't think like we will be living in ecstasy

[repeat bridge] [repeat chorus] [repeat bridge]

Don't feel my agony now
This is my last real hope
Don't heed the empty mindless call
I don't feel hatred towards you
This is my last remorse
Here comes the ending
Unite - in the mystic world
Unite - in the mystic world
Unite and overcome
