

Angel Nation, Breathe Again

Beaten still alive,
Broken still alive,
Falling down but I still breathe.
All the parasites in my mind
A 1000 ways to die.

It's not my turn tonight,
I'll find the way to survive.
And I watch again as they're feeding off my spite.
The poisons keeping me weak,
It is gone finally.
They're draining my resentment and I'm free,
To breathe again.

I'm still alive,
Bleeding still alive.
Paralyzed but I still breathe.
Stealing parasites inside me,
Friend or enemy.

It's not my turn tonight,
I'll find the way to survive.
And I watch again as they're feeding off my spite.
The poisons keeping me weak,
It is gone finally.
They're draining my resentment and I'm free,
To breathe again.

Born from kindness frozen to its place.
Toxic blood is running out and breathe again.

It's not my turn tonight,
I'll find the way to survive.
And I watch again as they're feeding off my spite.
The poisons keeping me weak,
It is gone finally.
They're draining my resentment and I'm free,
To breathe again.
Again, again, again,
I'm breathe again.
They're draining my resentment and I'm free,
To breathe again.
