

Angel Nation, Burn The Witch

Cold revenge, it burns like gasoline
Hunted down, punished for eternity

There was nowhere to hide, the crown was shining in her head
Echoes of the voice whispering "shelter me"
Shelter me

Tainted eyes, just a runaway
Hear the cry: shelter me
Godless child falling at your feet
Crying, oooo, shelter me

Ask for mercy and you might stay alive
Stuck in silence in the gravity of the mind

She can do no wrong, when nothing that she does is right
With the muted sound begging "shelter me"
Shelter me

Tainted eyes, just a runaway
Hear the cry: shelter me
Godless child falling at your feet
Crying, oooo, shelter me

Burn, burn... Burn, burn... Burn, burn...
Burn, burn... Burn, burn... Burn, burn...

Tainted eyes, just a runaway
Hear the cry: shelter me
Godless child falling at your feet
Crying, oooo, shelter me

Tainted eyes, just a runaway
Hear the cry: shelter me
Godless child falling at your feet
Crying, oooo, shelter me
shelter me
