

Angel, Us

We don't think too hard when
we're making a decision, ooh oh oh
I just take a chance cause we all
got somethin' we believe in, ooh oh oh
Get up we ain't got no time
And only twenty four hours on hand
We all wanna be first in the line and
In the dirt you find them diamonds

Shinning bright
Turning, I'm burning
This little light
I just want them all to know
All to know!

Nothing came out of thinking too much
Lift yourself up and think about where to go, go, go
Lift yourself up and think about us!
Lift yourself up and think about where to go
Lift yourself up and think about us!

We keep our focus
There's no stopping the vision, ooh oh oh
We can win the game if we complete all the missions, yeah
Get up we ain't got no time
And only twenty four hours on hand
We all wanna be first in the line and
In the dirt you find them diamonds

Shinning bright
Turning, I'm burning
This little light
I just want them all to know
All to know!
Don't just sit, stuck in the moment
Do it all or you'll die trying
Let's climb in

Nothing came out of thinking too much
Lift yourself up and think about where to go, go, go
Lift yourself up and think about us!
Lift yourself up and think about where to go
Lift yourself up and think about us!

When you feel like you're falling
Don't lose hope
You'll get back up
When you feel like you're falling
Shout out
I'll come storming right back up!!
/2x

Nothing came out of thinking too much
Lift yourself up and think about where to go, go, go
Lift yourself up and think about us!
Nothing came out of thinking too much
Lift yourself up and think about where to go, go, go
Lift yourself up and think about us!
Lift yourself up and think about us!
