

Angelic, Stay With Me

I feel your skin,
Then I begin to drift away,
Like clouds on a summer's day,
And when, we kiss
I feel so sleepless
As the night wears on
I just wanna hear you say

(Chorus) (x2)
Stay with me til the morning comes
Shower me with all your love
Stay with me til the morning comes
And longer if you dare (x2)

Stay with me
Stay with me

You're just like a composer,
When you come closer,
I hear music throughout my EARS,
And then you hold me,
Caress me slowly,
We'll watch the sun as it rises
Horizon is clear

(chorus)
