

# Angelspit, Princess Chaos

I don't know you, and I don't really care  
Fixate on you, perfection, ideal  
I'm so sorry, this is my guarantee  
This will happen, worse and repeatedly  
Sport for crows, patronize you for your own protection  
Narrow-minded, redneck breeding program  
Drown in her milk, waiting to be replaced  
Years made vapor, lost and blown away  
Fear of the dark  
My mouth is full of ruin, I breathe it into you  
Princess Chaos  
I'll set the world on fire, I'm gunna start with you  
(One) Spoilt child, attention seeking missile  
(More) Abuse, amends and back again  
(Black) See life through the eyes of a psycho  
(Heart) I know where you live  
(Casting darkness)  
Deep inside your mind  
(Screaming razors)  
Resonating down your spine  
(Wearing you down)  
I'll haunt you when you sleep  
(Vulnerable)  
I'll make the guilt sting  
Fear of the dark  
I bathe the world in spite, it keeps you in your place  
Growing nervous  
Abused, humiliated, naked and ashamed  
I will find you  
My mouth is full of ruin, I breathe it into you  
Princess Chaos  
I'll set the world on fire, I'm gunna start with you  
(One more breath for my last black heart)  
Fear of the dark

Growing nervous  
Abused, humiliated, naked and ashamed  
I will find you  
My mouth is full of ruin, I breathe it into you

(One more breath for my last black heart)  
I will not succumb to fear  
I won't be intimidated  
I will not succumb to fear  
I won't be intimidated
