

# Angra, Insania

Insania  
Will trap you there  
Insania  
Meet the dead

I was just a normal guy in this crazy world  
Strange like most everyone around me  
Struggling to survive my senseless days  
Till I found this curious gateway

Dragged inside I thought I'd go  
insane  
I tried to reach the doors  
But I knew it was too late

Insania  
Insania will trap you there  
Reality is torn apart  
The living ones will meet the dead  
Insania  
Where gravity won't hold you down  
And everyone is free to fly  
When passing through the open gates

It's a sight you can't conceive, in a dream reality  
It's a space that blows your mind when you enter  
Once you're there you'll know there is no return  
And the walls keep falling down in front of me

Terrified my feet had no control  
Try your way out, there's nowhere to run

Insania  
Insania will trap you there  
Reality is torn apart  
The living ones will meet the dead  
Insania  
Where gravity won't hold you down  
And everyone is free to fly  
When passing through the open gates

Imagine a world where we walk  
High above the ground  
You'll find all the cities floating in the clouds  
Where people are transparent  
Our minds are transcendent  
We all will be blessed until the end

Insania, Insania  
Please let me in  
Behind your walls

Insania  
Insania will trap you there  
Reality is torn apart  
The living ones will meet the dead  
Insania  
Where gravity won't hold you down  
And everyone is free to fly  
When passing through the open gates
