

# Angra, Millenium Sun

Angra  
Miscellaneous  
Millenium Sun

An eagle breaks the silence and overflies the field  
My eyes will try to follow till it vanishes away  
Like candles in the darkness we fight against the wind  
Devotion to your idols soon will overthrow the king

Out of order taming borders tearing down the fences  
On and on and after all the century has gone  
Racism jumble, turbulence my eyes believe  
We have gone to the end  
Ordinary Earth sailing through the space  
Population alienation losing all affection  
Calling on to heaven's hope to watch for my protection  
Out of luck potential stuck remote controlled  
By the T.V. again  
Carries human souls lead us the journey of our fate

Chorus  
So come millennium sun won't you show us the way  
Future's begun  
So words from my mouth come whispering for your return

Pictures a sunset on the lake mirrors of crystal your portrait  
Walking on this field while I wait  
Chorus ( repeat )  
Show us the future's began  
Burning the millennium sun
