Angus & Julia Stone, Mango Tree

I wish I had a mango tree In my backyard With you standin next to me Take the picture From her lips I heard her say Can I have you Caught up on what to say I said you do I said you do I said you do Through my eyes I can see A shooting star Weavn its way across the sea Somewhere from mars Down the street we would run To scratch our names in the path Young and free in the sun Wheels upon the tar I said you do I said you do I said you do I said you do
