

# Ani Lo. Projekt, A Miracle Is All We Need

Throughout my life, I've travelled around  
It's time to stop and say  
a miracle is what we need  
I know it seems hard this way  
I'm not the one who made these fatal rules  
we live by every day

It isn't make believe  
The images are real

A miracle (Just a miracle)  
is all we need (All we need)  
A miracle (A miracle)  
As time keeps - it keeps tickin'

It's true someone should say  
I didn't wanna be the one to tell the truth  
while others turn away

It isn't make believe  
The images are real

A miracle (Just a miracle)  
is all we need (All we need)  
A miracle (Just a miracle)  
As time keeps - it keeps tickin'  
A miracle (Just a miracle)  
to help us see (Help us see)  
A miracle (Just a miracle)  
'cause time just keeps on slipping away  
(x2)  
Time just keeps on tickin'  
Time keeps slipping away
