

Animal Collective, Golden Gal

Golden Gal on her screen
Some kind of tube she never seen
A gift to the girl ready to dream
Hoping new phones the
Spirit is burning to hear it for the girls again

So complex and brave
A power allure with her shoulders or legs
Give her a rose such a sexual thing
When she got a real view sent to me right away
And I'm keeping it new, and here it goes again

It's a strange kind of plot who steps in paves a golden way
With a humor that is known to really put me in my place
And with words so tricky, how we know what to say

My Gal is so strong you should hold your head above them
But you need not ask for much to get my pray

Golden Gal on her screen
Some kind of tube she never seen
A gift to the girl ready to dream
Hoping new phones the
Spirit is burning to hear it for the girls again

Let me dress up like a golden gal and have my golden day
Let me watch the mark of man from a table side in grace
Can only dream of how I'd be so amazed

The Gals were right on, when she needed laughs to fall on
For all of this and more I give them pray

You think the gals should feel so comfortable these days
But sexy agendas brings some troubles to the fray
And trouble tears apart another golden heart
So I want to be the reminder that she's stronger than the bone pawn of the day

Golden Gal, gave me my strength
She said, "I'll be here for you later, boy"
Now run along you have to fall
Golden Gal, gave me my faith
When all it took was some belief
But don't believe that she should change at all
Golden Gal, taught me restraint
She said, "You won't be more much later, dude!"
Or you're everything and now you're torn
Golden Gal I'll be beside her and I might want to stand in line
To find the kind of mind she can provide

You think the Gal should feel so comfortable these days
But sexy agendas brings some troubles to the fray
And trouble tears apart another golden heart
So I want to be the reminder that she's stronger than the bold pawn of the day

Golden Gal, gave me my strength
She said, "I'll be here for you later, boy"
Now run along you have to fall
Golden Gal, gave me my faith
When all it took was some belief
But don't believe that she should change at all
Golden Gal, taught me restraint
She said, "You won't be more much later, dude!"
Or you're everything and now you're torn
Golden Gal I'll be beside her and I might want to stand in line
