

# Animal Collective, Today's Supernatural

Come on let-let-let-let-let-let-let-let-let go!  
A rabid sea-saw  
But this exploding your brain it's gonna blow me out me out again  
And now i don't feel the same

Come on let-let-let-let-let-let-let-let-let go!  
Bionic hee-haw!  
You can dress yourself to dance  
And you can wear your party chains  
And i will welcome you the same

Come on let-let-let-let-let-let-let-let-let go!  
It's not a question for your head  
Come and join me near the speaker there's a ruby in your eye  
Oh, we don't have to be the same.  
Cause your ohms the sweetest thing inside of you  
Our home is bigger than a mountain view  
You find something you believe that you should do  
Sometimes it won't come so easy  
But sometimes you've gotta go get mad, mad!

Come on let-let-let-let-let-let-let-let-let go!  
The shifting ease on  
Let's me trip and i will stay with the reds and then the pains  
And now we're going up the same

Come on let-let-let-let-let-let-let-let-let go!  
I've got a question for your head  
I made a shadow with my hand  
And i made it like your heart  
And it will never be the same  
'Cause your ohms the sweetest thing inside of you  
My home is bigger than a mountain view  
Your find something you believe that you should do  
Sometimes it won't come so easy  
But sometimes you've gotta go get mad, mad!

All the good things  
Like having your surf breaks  
All of the  
Good things  
Like friends from a long way  
They'll be some fat kings  
You'll see  
Comes for  
Nothing  
And then we watch them  
Shred  
Feels like  
The suns going down  
Can you see the clouds  
Bet your in baltimore laughing so loud  
But have you seen those clouds  
Then you should come on out  
Today feels so supernatural

Come on let-let-let-let-let-let-let-let-let go!  
Erratic sea-saw is this exploding your brain  
It's gonna blow me out again  
And now i don't feel the same

Come on let-let-let-let-let-let-let-let-let go!  
I've got a question for the dead  
I made a shadow with my hand

And i made it like your heart  
And they will never be the same  
Same
