## Anna Tsuchiya, Change Your Life

Did I say that I want you?

Did I say I need you?

Did I kiss you that night

I don't remember who was next to me

Boy you'd better watch your mouth

You always lied to me

I'm not gonna trust you

Life won't go easy

You said you were hanging out with your boyfriends

But I saw you walking in the crowded street

I knew that girl was my best friend

Oh, you can't hide it from me

I wanna take you to paradise

Yes, you're so bright to me

But it's too late to apologize

Shut your mouth and get your face out of here right now

Baby you don't know where to hide

You'd better keep truth to yourself then I...

Gonna make yoù change your life

Don't throw yourself like that

I'll give you just one chance

But I don't want to waste

Oh, I don't want to waste my time

Time taught me to never stop

Love taught me how to kiss

Kiss taught me how to lie

Boy, Life is rounding & amp; rounding

I wanna take you to paradise

Yes, you're so bright to me

But it's too late to apologize

Shut your mouth and get your face out of here right now

Baby you don't know where to hide

You'd better keep truth to yourself then I...

Gonna make you change your life

Life is rounding

Never stop and

I know you're gonna lie to me

I don't give a ship and

you have to shut your mouth or I will be you

I wanna take you to paradise

Yes, you're so bright to me

But it's too late to apologize

Shut your mouth and get your face out of here right now

Baby you don't know where to hide

You'd better keep truth to yourself then I...

Gonna make you change your life

I wanna take you to paradise

Yes, you're so bright to me

But it's too late to apologize

Shut your mouth and get your face out of here right now

Baby you don't know where to hide

You'd better keep truth to yourself then I...

Gonna make you change your life
