

Anne-Marie, Bad Guy

[Verse 1]

You know what you did last night
You find it easier to lie
Gave you a thousand tries
And you give me nothin'

We could argue but there's no use
That wouldn't change the things you do
Would it kill you to tell the truth?
At least that would be somethin'

[Pre-Chorus]

How can you say it's all in my head?
You know the truth is
She's on your mind and I'm in your bed
Don't make me do this

[Chorus]

I don't wanna be the bad guy
I know it's sad but I
I can see it in your face
I know what you've done
Someone's gonna have to say it
Not gonna be the one
I don't wanna be the bad guy

[Verse 2]

Boy get your story straight
Nothin' is adding up the same
All of the details changed
You give me nothin'

I think your mind's made up
You know exactly what you want
So just pull the trigger love
At least that would be somethin'

[Pre-Chorus]

How can you say it's all in my head?
You know the truth is
She's on your mind and I'm in your bed
Don't make me do this

[Chorus x2]

I don't wanna be the bad guy
I know it's sad but I
I can see it in your face
I know what you've done
Someone's gonna have to say it
Not gonna be the one
I don't wanna be the bad guy

[Bridge]

How do you fall asleep right by my side?
After you've texted her saying goodnight
Promise I'm not gonna put up a fight
So just man up now and tell me goodbye

[Ending Chorus]

Cuz I don't wanna be the bad guy
I know it's sad but I (Yeah I know it's sad)
I can see it in your face
I know what you've done (Yeah, yeah yeah)
Someone's gonna have to say it

Not gonna be the one (To tell you)
I don't wanna be the bad guy

Cuz I don't wanna be the bad guy
I know it's sad but I (I know it's sad but I)
I can see it in your face
I know what you've done
Someone's gonna have to say it
Not gonna be the one
I don't wanna be the bad guy

No, no, ah
