

# Anne-Marie & Ed Sheeran, Ciao Adios

Ask you once  
Ask you twice, now  
There's lipstick on your collar  
You say, she's just a friend now  
Then, why don't you call her  
Say you want to go on with someone  
To do all the things you used to do to me  
I swear, I know you do

Used to take me out  
In your fancy car  
And make out in the rain  
And when I ring you up  
Don't know where you are  
Until I hear her say your name  
Used to sing alone  
While you played guitar  
Just a distant memory  
Hope she treats you better  
Than you treated me

I'm onto you  
I'm not your number one  
I saw you with her  
Kissing and having fun  
If you're not giving all of your money and time  
I'm not gonna sit here  
Wasting time all of mine on you  
Yes, you!  
Ciao adios, I'm done! /3x

After 3, after 4 times  
Why did I bother?  
Tell me, how much many more times  
Does it take to get smarter?  
Don't need to deny the hurt and the lies  
And all of the things that you did to me  
I swear, I know you do

Used to take me out  
In your fancy car  
And make out in the rain  
And when I ring you up  
Don't know where you are  
Until I hear her say your name  
Used to sing alone  
While you played guitar  
Just a distant memory  
Hope she treats you better  
Than you treated me

I'm onto you  
I'm not your number one  
I saw you with her  
Kissing and having fun  
If you're not giving all of your money and time  
I'm not gonna sit here  
Wasting time all of mine on you  
Yes, you!
