

Anthony Hamilton, Soul On Fire

Too much pride to back off of it
I wear it well where no one can see
I'm talking about pain
Gonna take trials to be delivered
Y'all know that happiness ain't for free
I'm heading down the wrong way
Please, somebody won't ya?
Oh, please won't somebody please stop me
My soul is on fire and I can't take this fighting no way
Got me running, got me running, got me running
Got me running, got me running
My soul is on fire and I can't face another day
I'm still hurting, 'bout to give up
Done lost sleep and lost weight, I'm doing bad
Getting hard to keep my chin up
I need somebody to kneel and pray for me, yeah
I'm heading down the wrong way
It's getting hard for me to breathe
Oh, please, won't somebody please stop me
My soul is on fire and I can't take this fighting, no way
Got me running, got me running, got me running
Got me running, got me running
My soul is on fire and I can't face another day
I can't face another day, yeah
(Oh, my soul)
My soul got me burning, got me hurting, got me
(Oh, my soul)
Won't you free, won't you help me, won't you listen to me
Oh, soul
[Incomprehensible]
My soul is on fire and I can't take this fighting, no way
Got me running, got me running, got me running
My soul is on fire and I can't face another day
I can't make it through another day, yeah
My soul is on fire
(Got me watching my back)
And I can't take this fighting no way
(You got me giving up and I gotta keep my chin up)
My soul is on fire and I can't face another day
Got me running, got me running, got me
Got me running, got me running, got me
Won't somebody call the preacher let him help me
Call my mother won't you tell her just to stop over
Please somebody, won't you help me through another day?
I can't make it out
Somebody won't you just
Help me thorough my problems, won't ya?
Give a little faith to me, say a little prayer for me
Somebody call my friend
