

# Anthony Marc, That's Okay

Anthony Marc

Marc Anthony

That's Okay

i remember how it used to be  
when you said you were in love with me

now i'm all alone

sitting by the phone

there's that memory

hangin' over me

oh, you were something

and now we're nothing

[chorus:]

i still can't believe

you're leaving me

in the middle of what used to be

our thing

that's okay

and i still don't see

a reason for you killing me

the way you did

that day

that's okay

i can't shake all that you promised me

can't believe i let it conquer me

now you're on your way

to that better day

and i'm here at home

sitting all alone

oh, you were something

and, that's why we're nothing

[repeat chorus]
