

Anvil, Legal at Last

Now's the time, pick up the pace
Now we'll make an about face
Complexities yet to be seen
Change rules of society
We take responsibility
Is it what it should have been?
It should have been

Chorus:
Not just like the past
Legal at last
(Legal, legal, legal)
Legal at last

Now you take your medicine
All a big financial win
Government is in delight
Find the cure for cancer
We're looking for the answer
Let's hope we've done it right
Done it right

-Chorus-

Legal at last
Legal at last

They say it's recreational
Profits are sensational
Money to be made
Give me doctors' good advice
Just another human vice
That the government Okayed
(Okayed)
It's Okayed
(Okayed)

-Chorus-
Legal at last
(Legal, legal, legal)
Legal at last
Legal at last
(Legal, legal, legal)
Legal at last
