

# Anvil, Stop Me

When you see me you can't resist  
You want my name on your telephone list  
In your dreams and on your mind  
Tonight's the night I could make you mine  
Later on just me and you  
I could make your dreams come true  
You say for you I'm number one  
Just meeting me is such fun  
Oh no, you won't go, don't know what you're missin  
You say, you won't stay, you stop me when we're kissin  
Stop me when we're kissin  
You come backstage to talk awhile  
I wanna party 'cause that's my style  
Young &amp; tight you're what I need  
Your fantasies I wanna feed  
So come with me, back to my place  
You know you've got such a pretty face  
I'll show you how it is to be  
Hanging around with a rocker like me  
Tellin me you've gotta run  
Cuttin out before the damage is done  
Come on babe that ain't no fun for me  
Cuttin down ain't where it's at  
You're just a tease and that's a fact  
No more talk it's going nowhere  
And neither are you, you just sit and stare  
Time to go I'll say goodbye  
I thought I saw tears in your eyes  
You watch me leave in my limousine  
And you go home to your poster dreams
