

# Any Trouble, Trouble With Love

You've got a fever in the soul nowhere to go  
Cheap haircut, nothing to show  
Dressed to kill, that's the trouble with love  
Crocodile tears on a strangers shoulder  
You've guessed his age but he thinks you're older  
Living on instinct that's the trouble with love  
Trouble with love, getting out of hand  
Trouble with love, dancing in no mans land  
I'll take my chance, taking my chance  
In an up-down world it can make you push and shove  
Whoa, ooh, that's the trouble with love  
It's a message waiting from a distant friend  
All night parties are the latest trend  
Missing in action, that's the trouble with love  
An overnight bag and a weekend pass  
Tea and toast with a touch of class  
Mission accomplished, that's the trouble with love  
Trouble with love, getting out of hand  
Trouble with love, dancing in no mans land  
I'll take my chance, taking my chance  
In an up-down world it can make you push and shove  
Whoa, ooh, that's the trouble with love  
Everybody tells you it's a crazy thing to do  
But you went and hoped  
That your good luck would see you through  
Well, you got dressed up and said some grace  
Had a blank expression on your face  
Choosing the moment, that's the trouble with love  
Your whole life's just one endless fight  
Beauty search for something right  
Chain reaction, that's the trouble with love  
Trouble with love, getting out of hand  
Trouble with love, dancing in no mans land  
I'll take my chance, taking my chance  
In an up-down world it can make you push and shove  
Whoa, ooh, that's the trouble with love  
That's the trouble with love  
I need to tell you, baby  
That's the trouble with love
