

April Wine, Can't Take Another Night

(Brian Greenway/Jeff Nystrom)
Published by Beeg Tunes/Ed Bloc Notes - BMI

I'm lookin' out my window
I guess the rain's about to fall
And the radio won't let you leave my mind
It's like watchin' shadows on the wall, yeah

I can't take another nite
I can't take the night alone, if we're not together
What do I do to make it right
I can't take another nite, I can't take another nite

You said you'd think it over
But you've been gone for such awhile
You said that time would never change a thing, but baby
We were young (we were young), and we were restless
And we were headstrong with desire

I can't take another nite
I can't take the night alone, if we're not together
Baby, what do I do to make it right
I can't take another nite, I can't take another nite

We could ride on this mystery train forever
We gotta get it right girl, it's now or never

So many times girl, you walked out that door
But you make it look easy, when you come back for more

I can't take another nite
I can't take the night alone, if we're not together
Baby, what do I do to make it right
I can't take another nite, I can't take another nite
Ooh yeah, what do I do to make it right
I can't take another nite, I can't take another nite
I can't take another nite
