SUPER RAD

I've got a small friend
Who has a fat friend
Who had a big friend
Who gave birth to many friends
With our flashlights to the sky
We waited for them to land
I've got two tall friends
Who know my small friend
Who seem to have a problem with you
They've got roman candles bottle rockets for the vandals
Who covered our lockers in glue
(Bridge)
We're on our way
Here we go
We're gonna take over
Set it off
One last time
Here we come again
We were strangers and we were pilgrims
Role models of the family man
Pioneers and patriarchs
Patriots and matriarchs
Stakin out the promised land
Our little army
We were commandos
Guerillas with decoder rings
We felt some opposition from some villains who were wishin
They could be cadets and kings
(Bridge)
(Chorus)
All systems go
Soon the world will know
The fury of attack
Feel the wrath of
The super rad
A-super rad
All systems go
Soon the world will know
The fury of attack
Feel the wrath of
The super rad super rad super rad
Su-per Rad!
Step off homie
And if we die
Before the battle's through
Tell your mom
Tell your dad
We were su-per rad.
(Bridge)
(Chorus)
All systems go
Soon the world will know
The fury of attack
Feel the wrath of
The super rad
A-super rad
All systems go
Soon the world will know

Feel the wrath of the super rad super rad super rad
