

Arab Strap, Leave The Day Free

Go and close the curtains - it's getting too bright.
We need some music, let's stay up all night.
Put the light back on - I can't see your face.
Can you feel it? It's going some pace.
No inhibitions, we could still have some more
so pass me my jeans from your side of the floor.
No plans for tomorrow - leave the day free.
Just waste it in bed, waste it with me.
