## Aram MP3, Not Alone (Armenia, Eurovisia 2014)

You're all alone, you're all alone, No shoulder wants you to lean on, You thought this world was too cold And you've made up A whole new world

Don't cry, don't cry little bird Though you are scared and you're hurt You're gonna wake up It's only a dream And why do dreams make people scream

You're not alone...

What if it's all in one kiss That turns all seeds into trees The strongest wind into breeze Enter all doors without keys

What if it's all in one kiss That turns all seeds into trees The strongest wind into breeze What if it's all in one kiss

You're not alone...
