

Arctic Monkeys, Stop The World I Wanna Get Off

Open sesame
We've places to go
We've people to see
Let's put them on hold
There's all sorts of shapes
That you can make
When you went to escape
Say the word:

Now I know getting you alone isn't easy to do
With the exception of you, I dislike everyone in the room
And I don't want to lie, but I don't want to tell you the truth
Get the sense that you're on the move, and you'll probably be leaving soon.
So I'm telling you:

Stop the world cause I wanna get off with you
Stop the world cause I wanna get off with you

Eyes the color of
Water left in wood
Ice and sugar dust
Crazy green flashes
It's a funny thing that I cannot explain
Don't you know the train keeps rolling

Stop the world cause I wanna get off with you
Stop the world cause I wanna get off with you

Well I know that getting you alone isn't easy to do
And I don't wanna lie and I don't wanna tell you the truth
And I know we got places to go, we got people to see
Think we both ought put 'em on hold and I know you agree

Stop the world cause I wanna get off with you
Stop the world cause I wanna get off with you
