

# Ariana Grande, All My Love (ft. Major Lazer)

Some times I think we're the brightest stars  
And I try to believe we'll find a way  
Will life change, will our hearts turn colder?  
(Major Lazer)

All the rhythms in my heart lift me up inside  
We can stay out of the trouble is it worth the blame?  
Is it true that the more you give the more they take?  
All the rhythms in my heart lift me up and say

All your love will make us ache  
All your love is worth the chase  
All my love I know we're waitin' for this  
All my love's up on the mountain tops

All my love /3x  
Up on the mountain top

All the rhythms in my heart lift me up and say  
We're just a mess of broken people but we love the game  
I would do anything for us, it's worth the pain  
All the rhythms in my heart lift me up and say

All your love will make us ache  
All your love is worth the chase  
All my love I know we're waitin' for this  
All my love's up on the mountain tops

All my love /3x  
Up on the mountain top

You're always on my mind, oh there'll come a day  
Day where we can fly, reach the glory gaze  
High up in the sun and by the sky, sun and by the sky

All your love will make us ache  
All your love is worth the chase  
All my love I know we're waitin' for this  
All my love's up on the mountain tops

All my love /3x  
Up on the mountain top
