

Ariana Grande, Break Your Heart Right Back (feat

I should have saw it coming
I should have saw the signs
But I wanted to believe you, trust you
You said you wouldn't lie
But baby you were so good, so good
You had me going blind
You said it was your best friends, I'm guessing
I wasn't your type, hey

What goes around comes around
And if ti goes up, it comes down
I know you mad cause I found out
Want you to feel what I feel right now

Now that it's over
I just wanna break your heart right back, right back
Want you to cry me a river
I just wanna break your heart right back, yeah
All this time I was blind
Running around Telling everybody
My baby loves me
My baby loves me
My baby, my baby, my baby loves me

You said I was your best, would be your last
Now he's gone, you're alone
Don't want you back
You're telling me you're sorry
Well sorry, my friends
Cause I've already been there, done that
Ain't doing this again, no

What goes around comes around
And if ti goes up, it comes down
I know you mad cause I found out
Want you to feel what I feel right now
Now that it's over

I just wanna break your heart right back, right back
Want you to cry me a river
I just wanna break your heart right back, yeah

All this time I was blind
Running around Telling everybody
My baby loves me
My baby loves me
My baby, my baby, my baby loves me
My baby loves me
My baby loves me
My baby, my baby, my baby loves me

Listen, you got man but you man ain't loyal
Don't understand how to spell it out for ya
Yes I'm G, from the A, and they ask why
Sorry had to tell ya I'm a nice guy
Naw I'm a sick guy, money too much
I step on stage and girls move too much
The flow so gross, my nickname school lunch
And he with them other guys, you know it's cause

G-A-M-B-I-N-O, I know they hate
But I don't know why, uh
I know the way he did you as whack

But I know how you can get dude right back

Now that it's over

I just wanna break your heart right back, right back
Want you to cry me a river
I just wanna break your heart right back, yeah

All this time I was blind
Running around Telling everybody
My baby loves me
My baby loves me
My baby, my baby, my baby loves me
My baby loves me
My baby loves me
My baby, my baby, my baby loves me

Ooh, you running around town tell everybody
Ooh, you running around town tell everybody
Ooh, you running around town tell everybody
Ooh, you running around town tell everybody

I'm coming out, he's coming
I'm coming out
