

# Ariana Grande, Right There (ft. Big Sean)

[Intro:]

(If you wanna party, if you, if you wanna party)  
Then put your hands up (Then put your hands up)  
(If you wanna party, if you, if you wanna party)  
Then put your hands up (Then put your hands up)  
You got it, you got it babe  
You got it, you got it babe  
You got it, you got it babe  
You got it, you got it babe

[Sean Don:]

Sean Don!

Okay, this, this, this one for my number one girl who got the top spot title  
Spent a hour in the bathroom walked out looking like a model  
God! Doing what you do, got me right there with Apollo  
On the moon, who needs genies in a bottle girl  
If they already got you (got you, I got you)

[Ariana Grande:]

Boy you make me feel so lucky  
Finally the stars align  
Never has it been so easy, to be in love  
And to give you this heart of mine

You know what I need  
I know what you like  
Put it all together baby  
We could be alright  
How can this be wrong  
When it feels so right  
Yeah, I really love you  
I really love you oh

And I'll never let you go  
You should know  
I'm never gonna change  
I'm always gonna stay  
When you call for me  
I'm right there (right there)  
Right there (right there)  
Cause you listen  
And you care  
You're so different  
No one compares  
And if you never change  
I'm gonna stay right there  
I'll always be right there

You got it, you got it babe  
You got it, you got it babe

I get butterflies just thinking  
About you boy. You're on my mind  
Sometimes I catch myself daydreaming  
Lost in your eyes  
And I lose all track of time

You know what I need  
I know what you like  
Put it all together baby  
We could be alright  
How could this be wrong  
When it feels so right  
Yeah, I really need you

I really love you

And I'll never let you go  
You should know  
I'm never gonna change  
I'm always gonna stay  
When you call for me  
I'm right there (right there)  
Right there (right there)  
Cause you listen  
When you care  
You're so different  
No one compares  
And if you never change  
I'm gonna stay right there  
I'll always be right there

[Big Sean:]

(What, okay, what)  
Now if all fell through  
Would you catch me before the pavement  
If my Benz turned back to Public Transportation  
Would you still be at home for me with the candles waiting  
And get my mind back adjacent to the place of a young visionary  
A player too, you know I have some girls missionary  
My black book of numbers thicker than the dictionary  
And bible I got it recycled  
I love and I like you  
Five course meals even though you don't mind a drive-thru  
That's why I got you

[Ariana Grande:]

And I'll never let you go (I got you)  
You should know  
I'm never gonna change (I'm never gonna change)  
I'm always gonna stay (I'm always gonna stay)  
You call for me (right there)  
Right there  
Cause you listen  
And you care  
You're so different  
No one compares  
And if you never change  
I'm gonna stay right there  
I'll always be right there

(If you wanna party, if you, if you wanna party)  
You got it, I'll always be right there  
(If you wanna party, if you, if you wanna party)  
I'll always be right there  
You got it, you got it babe  
You got it, you got it babe  
You got it, you got it babe  
You got it, you got it babe  
You got it babe
