You can't forget me,
gave you the time of your life

[Pre-Chorus]

What you need, babe, is a number one
Can't you see, babe? I've got what you've been waiting for
What you need, babe, is a work of art
What you need, babe, come get it, I got it

[Chorus]

Step on up to this
Step, step on up to this
Step on up to this crazy love
Step on up to this
Step, step on up to this
Step on up to this crazy love
