

Ariana Grande, test drive

Pull up, pull up on me
Might recline the seat when i want it
Give you a set of keys
Cause you won it
Pull up, pull up on me
No second guessing
Checking the rearview
Ain't looking back unless it's right at you

Make me wanna stay through the night
I will never leave from by your side
Don't you know you got a ride or die
Even when i miss you on the road
You should know i am always in control
Cause the one thing already know

No, i don't feel the need to
Test drive nothing,
Test drive nothing,
Baby, i am sold n you, so i don't ever gotta
Test drive nothing,
Test drive nothing,
It's in the way you do
It i don't ever gotta babe

I drop the top on that body
That's Candy paint on my body
I am thinking about the way i feel on you
If you want, say i do, i'll floor it
Just say the word you know i am yours
Just drop a pin and don't reverse

Make me wanna stay through the night
I will never leave from by your side
Don't you know you got a ride or die
Even when i miss you on the road
You should know i am always in control
Cause the one thing already know

No, i don't feel the need to
Test drive nothing,
Test drive nothing,
Baby, i am sold n you, so i don't ever gotta
Test drive nothing,
Test drive nothing,
It's in the way you do
It i don't ever gotta babe
