

# Arid, Life

Hey kid,  
hasn't love bit you lately?  
Well maybe,  
still yet to come to fulfil  
and erase, yeah raise.  
And circumstances dancing  
around my head  
It's the way to your soul  
that holds me alive  
Life, life

We forced up the fear  
and that's why we're wandering  
Life, life, life, life, life  
Just hold on my dear,  
isn't that why we're here, love?  
Life, life, life, life, life  
My baby she knows  
the weight that I'm under  
Life, life life, life, life  
Life, sweet life...

I could slowly seek  
and wonder  
Many do erase  
from the eye

I could slowly seek  
and wonder  
Many do erase  
from the eye

I could slowly seek  
and wonder  
Many do erase  
from the eye

Life, life, life  
We forced up the fear  
and that's why we're wandering  
Life, life, life, life, life  
Just hold on my dear,  
isn't that why we're here, love?  
Life, life, life, life, life  
My baby she knows  
the weight that I'm under  
Life, life life, life, life

It's gonna be  
It's gonna be  
It's gonna be  
It's gonna be  
It's gonna be  
It's gonna be  
It's gonna be  
It's gonna be  
life, hold on tight to the life, life, life, life  
It's going to be  
our little trial  
Life, life, life

It's going to be  
our little trial  
Life, life, life

And she,  
holds me alive  
Life, life, life, life, life
