

ArrDee, War (feat. Aitch)

If they wanna battle I'm ready for war
I come from the struggle and love all the trouble I've been here before
I'm done and I'm sick of the talk with the smiling faces, not anymore
Kick in the door
Been in the gutter I come from the mud I can give you a tour
If they wanna battle I'm letting it loose

I've been the bigger man
And they didn't give a damn
And I don't wanna call a truce
And they don't wanna hear the truth
They think it was luck that got me in the booth
Cuz I'm up and I'm eating my fruits
And they didn't see the seed all the bleeding
Non believing under achieving see I remember
This time I was flat on my ass
Mum lost the yard
And I'm tryna graft
Studio was just my time apart
I'd go bake off back it Muli's yard
Scheming how we'd get our mulas up
Stupidness for a few quid more
I thank god everyday that music buss
Think I ain't ready
You stupid cunt

If they wanna battle I'm ready for war
I come from the struggle and love all the trouble I've been here before
I'm done and I'm sick of the talk with the smiling faces, not anymore
Kick in the door
Been in the gutter I come from the mud I can give you a tour
If they wanna battle I'm letting it loose

Alright I got 16, 15 left
Armz Kelone when I lift these reps
Hard to moan when u live this bless
Bro don't park the chrome he just grips and press
Swipe and go I spent
Quids on creps
Multiply my dough when I Flip this cheque
All I write bouts tits and sex
I'm surprised I ain't had no pckneys yet
Nah I lied these man are my youts
Spit a line and Fire up man the booth
Bring the ride out Stand on the roof
man tried but you just can't battle the truth
Some my guys still savage a yout
It's not a music vid they ain't planning a shoot
If I happens it happens its true but ..

If they wanna battle I'm ready for war
I come from the struggle and love all the trouble I've been here before
I'm done and I'm sick of the talk with the smiling faces, not anymore
Kick in the door
Been in the gutter I come from the mud I can give you a tour
If they wanna battle I'm letting it loose
