## Arsenium, 25

You can take my hand,

lets fly together.

To the lovers land,

where passion makes the weather.

You can take my own

Everything I own, Everything.

[Refren]

I met you in my dreams

And I love you

Just tell me youre real

cause I need you

And I feel you,

I hear when it close to me

love is real.

Say that you believe me.

Stars are shine in brighter

Night is getting whiter

Waiting for a sunrise

To open your eyes

Your beautiful eyes

You can take my own

Everything I own,

Everything I own.

[Refren]

I met you in my dreams

And I love you

Just tell me youre real

cause I need you

And I feel you,

I hear when it close to me

love is real

Say that you believe me.

Love you,

Love you,

Love you,

Love you,

Love you

Like noone loves you

Im gonna leave you anyone x2

[Refren]

I met you in my dreams

And I love you

Just tell me youre real

cause I need you

And I feel you,

I hear when it close to me

love is real

Say that you believe

I met you in my dreams

And I love you

Just tell me youre real

cause I need you

And I feel you,

I hear when it close to me

love is real

Say that you believe me.

I love you
