

Art Brut, We Make Pop Music

There is an awesome party happening
But awesome parties aren't my thing
I just pretend I'm into it
And then cancel at the last minute
Wake me up when its all over
You'll find me sleeping on the sofa
Let's move to a seaside town
And never leave the eiderdown

We make pop music
Guitar based pop music
For people that don't like people

There is an awesome party going on
But hopefully not for too long
I'm sorry if I don't join in
But other people aren't my thing
Let's move to a seaside town
and never leave our dressing gowns

We make pop music
Guitar based pop music
For people that don't like people

Other people I'm not a fan
I try to avoid them whenever I can
I walk around in a daze and clothes that fit
Waiting for one of these songs to hit.

We make pop music
Guitar based pop music
For people that don't like people

It's so hard to bring them together,
Why wont they just come together.
