

Ashanti feat. Irv Gotti, Scared

Scared

We sitting here man

Digging on each other I'm feeling the shit out of you

You feeling the shit out of me

What you scared don't be scared

It was around 11 30 when I realized I miss you

Sitting at home all alone thinking what did I

Just do, feeling was strong coming on and I knew I wanted you

Something inside me held me back

Boy you got me scared of you

You got me afraid to let my love go

Is it my heart that I should follow

Got me afraid to let myself go

Got me scared of you

You got me afraid to let my love go

Is it my heart that I should follow

Got me afraid to let myself go

Got me scared of you

See, see what what it's like it's like we got to get over this hump ma

Until we get over this hump, it's going to be fucked up

If I let go I don't know if my heart will remain strong

Cause you the type that just might give

Right and get me strong I couldn't be just a girl

That your're seeing once a month cause if it

Goes down better believe I'm gonna be your only one

You got me afraid to let my love go

Is it my heart that I should follow

Got me afraid to let myself go

Got me scared of you

You got me afraid to let my love go

Is it my heart that I should follow

Got me afraid to let myself go

Got me scared of you

Should I let it go

Should I let it go no no no no

Should I let it go

Should I let it go no no

No no no no

Should I let it go

Should I let it go no no no no

Should I let it go

Should I let it go no no

No no no no

What's the problem ma

I can see it in ya eyes you want me just how I want you, you still

Scared, you still scared it's cool though

I'll be scared too fuckin' with a nigga like me, I'll

Be scared too, it's aight though, I'm a wait on you, just holla back aight
