

Ashley Tisdale, Don

Zoom zoom in under my skin
Gotta slow down now to begin
Baby don't rush you can look but don't touch

You think u know
When u see me in my videos
How the story goes
But that's just the side that I expose
Look through the lens
You see my body, not who I am...
So don't pretend
And try to act like you're my boyfriend

U wanna get somewhere
Then boy don't touch me there
Just get up close and personal, personal

Chorus:
Zoom zoom in under my skin
Gotta slow down now to begin
Baby don't rush you can look but don't touch
Zoom zoom
In...to my head
Gotta know me to be my man
Boy prove your love

You can look but don't touch

You won't behave
You're gettin' all up in my face
Barely know your name, you're tryin' to score
But it's not a game
Boy get a clue yeah,
U gotta spend the time,
Pay your dues following the rules if u want me to want to be with u

U wanna get somewhere
Then boy don't touch me there
Just get up close and personal, personal

Chorus

Don't you dare
Touch me there
If you want to get somewhere
Zoom in get to know me, boy
Don't rush
Zoom in if you want me, boy
Don't touch

Chorus
