

# Ashley Tisdale, Don

Zoom zoom in under my skin  
Gotta slow down now to begin  
Baby don't rush you can look but don't touch

You think u know  
When u see me in my videos  
How the story goes  
But that's just the side that I expose  
Look through the lens  
You see my body, not who I am...  
So don't pretend  
And try to act like you're my boyfriend

U wanna get somewhere  
Then boy don't touch me there  
Just get up close and personal, personal

Chorus:  
Zoom zoom in under my skin  
Gotta slow down now to begin  
Baby don't rush you can look but don't touch  
Zoom zoom  
In...to my head  
Gotta know me to be my man  
Boy prove your love

You can look but don't touch

You won't behave  
You're gettin' all up in my face  
Barely know your name, you're tryin' to score  
But it's not a game  
Boy get a clue yeah,  
U gotta spend the time,  
Pay your dues following the rules if u want me to want to be with u

U wanna get somewhere  
Then boy don't touch me there  
Just get up close and personal, personal

Chorus

Don't you dare  
Touch me there  
If you want to get somewhere  
Zoom in get to know me, boy  
Don't rush  
Zoom in if you want me, boy  
Don't touch

Chorus
